Project Development and Consultancy

GrandArch Design is a reliable partner for all stages of project development, from initial concept to investor consultancy. With over 1,200,000 m² of completed projects in Turkey and the Middle East, we provide tailored solutions for investors and architectural offices.

Our Services:

- **Concept Design**

Developing the initial project idea, visualization, and creative concept design.

- **Architectural Application Projects**

Preparing detailed architectural drawings and implementation solutions following concept approval.

- **Technical Coordination**

Managing technical processes, including façade, joinery, and material integration on a project basis.

- **Design Consultancy**

Offering project development, strategic consultancy, and support in material and manufacturer selection with alternative solutions for investors and project offices.

- **Structural, MEP Projects**

Preparing structural, mechanical, and electrical designs and integrating them into the project.

- **Project Supervision**

Providing project monitoring and supervision services.

Why GrandArch?

- **Reliability:** Our experience and strong brand identity ensure confidence in your projects.
- **International Compatibility:** Easily understood in languages, recognized in global markets.
- **Comprehensive Solutions:** Managing the project from concept through technical coordination, architectural application, and supervision.
- **Professional and Memorable:** Offering all design and consultancy services under a single trusted brand.
